CRITICAL THINKING LAB

Janellis

ENABLING TEAM-BASED CRITICAL THINKING

This experiential and interactive session will help you:

- → stress test strategy
- → facilitate deeper levels of thinking on complex problems
- → enable a more agile and adaptive capacity to deal with change
- → provide a more robust and objective approach to decision making
- → build a shared view of risks and opportunities
- → develop contingency plans
- → challenge assumptions
- → uncover blind spots

Using the Executive Decision Support Tool you'll learn

- How to apply scenario-based activities to uplift team decision making capabilities
- How you can enable team-based critical thinking within your project or business
